

Philip Tomlinson

Front-end Web Developer (Freelance)

SUMMARY

I'm a freelance front-end web developer specialising in HTML5, CSS, JavaScript, Blazor, Bootstrap, and Sass. I am proficient in development tools such as Visual Studio, VS Code, Gulp, and Git.

EXPERIENCE

Coderover Ltd, Blackburn — *Freelance Web Developer*

2013 - PRESENT

Remote and on-site freelance front-end web development for clients, both on an ongoing basis and single projects. Building long-term relationships with notable clients, including JD Williams and Foodoo.

First Internet Marketing, Altrincham — *Head of Development*

2007 - 2013

Managed a small team of developers and a large number of web application projects. Developed websites primarily using CakePHP and WordPress. Liaised with clients for project requirements and maintenance.

Prestbury Travel Group, Poynton — *IT Manager*

2005 - 2007

Developed internal Customer Enquiry and Quotation Utility with PHP and MySQL. Maintained existing website (ASP) and developed new websites (PHP). Provided IT support for staff across six locations.

Purepages Group, Blackburn — *Junior Developer*

2004 - 2005

Worked as part of a small team of software and web developers. Maintained and built client websites using PHP and MySQL. Tested C# software program that filters internet content - developed for government bodies.

EDUCATION

University of Bradford — *BEng (Hon) Software Engineering*

2001 - 2004

SKILLS

HTML5, JavaScript, CSS, Sass, Bootstrap, Blazor, Git, Gulp, Visual Studio, VS Code, Linux CLI.
